Defence Technology

Army · Marine · Airforce

The bundling of our competences and capacities enables us to act as a system supplier and also to accompany major projects nationally and internationally in the sense of a One Stop Solution. All products in the areas of Hose Technology, Plastic Injection Moulding, Rubber Moulded Parts, Profile Technology, Sealing Technology as well as Etching and Fine Laser Technology now come from a single source.

CERTIFICATIONS · ADMISSIONS

Federal Office for Information Management
and Information Technology of the Bundeswehr

Bundeswehr/BAAINBw approvals according to

- VG95922-1 C7567/01/VG 95922-1
- VG95922-2 C7567/01/VG 95922-2
- VG95922-3 C7567/01/VG 95922-3
- VG95922-4 C7567/01/VG 95922-4
- VG95922-6 C7567/01/VG 95922-6

PLASTIC INJECTION MOULDING

- Part weight 1g to 600g
- Different colors possible
- Clamping force up to 240 t
- Prototype production

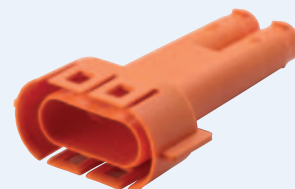

RUBBER PROFILES

- 2K - 5K Profiles
- Magnetic profiles
- Sealing profiles

RUBBER MOULDED PARTS

- Bellows
- Rubber buffers
- Moulded hoses
- Gaskets

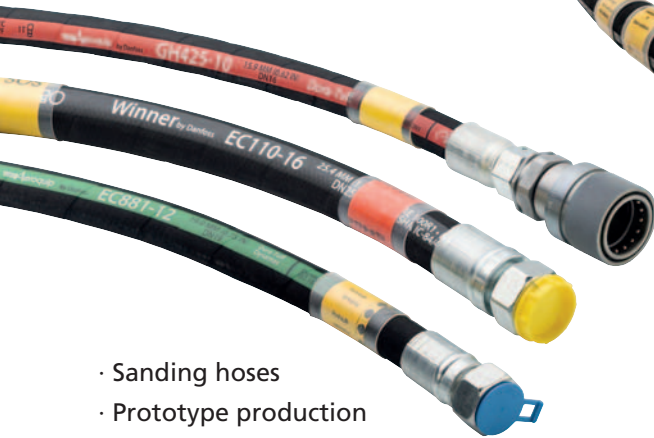

SAFETY FIRST

MAXIMALL® hose systems offer a comprehensive selection of hoses according to DIN EN 45545-2, ISO 15540, DIN EN 50553.

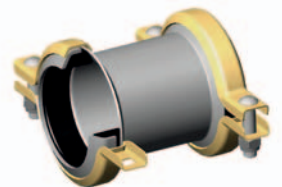

Further certifications of our company as well as approvals in our team can be found here:
www.sb-it.com/en/company/download

HOSES

Our hoses guarantee safety, durability, and enormous flexibility in daily use through decades of experience in working with standards like DIN EN45545-2 and many others as listed.

- Sanding hoses
- Prototype production
- Hydraulics/Pneumatics
- Cooling water hoses
- Drinking water hoses
- Plastic hoses
- Air conditioning hoses
- PTFE
- MAXIMALL® S2000

FITTINGS AND COUPLINGS

- Pipe fittings according to DIN 2353 and VEBEO
- Special valves and jump sizes
- Ball valves and shut-off valves
- Soldering and threaded fittings
- made of MS/gunmetal and copper
- Adapters, transition pieces and reducers
- Flexmaster (elastic pipe connections)

FASTENING SYSTEMS

- Hose clamps
- (various types and materials)
- Pipe clamps and fastenings
- VMC mounting rails

SEALING TECHNOLOGY

- Isolation
- Vibration protection
- Sealing

FOR ABSOLUTE SECURITY

Customised hose-conduit service

SCHAUENBURG Industrietechnik has been approved by various classification societies as an authorised assembler of individual products. These societies include Bureau Veritas, Lloyd's Register, Det Norske Veritas, ABS and RINA. SCHAUENBURG Industrietechnik is authorised to manufacture hose lines, issue certificates and deliver to customers under its own name, meaning that no more individual approval processes have to be carried out by an inspector on site. In addition to this, the company has accreditations from the **Federal Office for Information Management and Information Technology of the Bundeswehr BAAINBw**.
